SalePoint announces marketing partnership agreement with DigiPoS Systems Group.

FOR IMMEDIATE RELEASE.

Sacramento, California - January 3, 2007

SalePoint, Inc., a software company providing leading solutions in specialty retail, healthcare and higher education, today announced a new marketing partnership with DigiPoS Systems. SalePoint now offers DigiPoS[®] hardware solutions including the innovative Retail Blade Technology.

"The addition of DigiPoS to our hardware offering provides an exceptional, value priced hardware platform for SalePoint customers. SalePoint's software applications with OPOS and JPOS standards are an ideal fit for the DigiPoS system. DigiPoS has established its products as a viable alternative to PC Cash Drawer configurations in the specialty retail market by offering durability, reliability, and low maintenance costs" says Paul Streicher, President of SalePoint.

Don Gibson, Managing Director of DigiPoS Systems, stated "Our ability to build relationships with software providers such as SalePoint opens the door for retailers, large and small, to take advantage of non-proprietary systems that are currently available on the market. This solution allows for tailor-able retail functionality but with the value of standard PC technology, opening retailers to lots of options in an economical and long lasting solution."

About SalePoint

SalePoint is headquartered in San Diego, California with offices in Sacramento and Columbus, Ohio. SalePoint with over 150 customers worldwide provides software solutions for the specialty retail, healthcare, higher education and public sector industries. The company's customers include such leading names as Pacific Sunwear, Spencer Gifts, Kaiser Permanente, Cato Corporation, the University of Chicago and Puerto Rico Aqueduct and Sewer Authority.

About DigiPoS Systems Group:

DigiPoS Systems, established in 1994, has developed an industry reputation for delivering highly reliable point-of-sale solutions that provide exceptional value. Our "Designed for Retail" systems are used by chain and independent retailers in every vertical market and have been installed in over 125,000 lanes worldwide. The business has continued to meet the needs of top retailers such as NEXT, Laura Canada, Harrods, Escada, Claire's and AAFES.
