The best value in a fully integrated corporate information management solution for a growing retail enterprise.

THE RIGHT SOLUTION AT THE RIGHT PRICE

Retail Interact represents the best value in a complete and comprehensive set of applications needed to manage a growing retail enterprise. It can be implemented quickly and at a lower cost than any other enterprise software product of its kind. You do not need a staff of high priced outside consultants, nor do you receive a surprise bill from hidden costs of implementation and integration. Retail Interact provides value—*fast*.

PROVEN TO MEET YOUR NEEDS

With installations in apparel and hard goods retailers worldwide, Retail Interact's fully integrated corporate merchandise management solution is a proven product with a history of maximizing profitability and growth. Retailers can manage ever-increasing amounts of information that are generated each day and ensure that merchandise is available to customers at the right time and at the right price.

TRULY RETAIL-DRIVEN

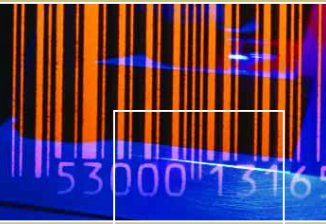

Retail Interact is truly a retail-driven application. It is a combination of expertise from retailers and software engineers that has produced powerful, full-featured modules to meet your requirements today, and position you for the future, whether it's store expansion, or e-commerce. We continually improve our system by incorporating new features and soliciting customer input through our annual Users' Conference.

"SalePoint's fully integrated solution positions us for the future."
