SalePoint Expands Revenue Cycle Solutions Offerings with mPay Gateway Agreement

FOR IMMEDIATE RELEASE

San Diego, California – March 31, 2010

SalePoint today announced that it has entered into an agreement with mPay Gateway to resell mPay Gateway's single source payment solution to healthcare providers.

"We are pleased to add mPay Gateway's payment solution to our healthcare product offerings," said Larry Haworth, CEO of the company. "We focus on automating the front end of the Revenue Cycle for healthcare providers. The mPay Gateway solution makes it easier for health care providers to collect the patient's share of a bill for service while also reducing patient confusion over how much they owe and when to pay. Healthcare providers can quickly calculate the patient's share at the time-of-service and authorize payment before services are provided. This simplifies the patient transaction and greatly reduces collection costs and bad debts. Since the solution is provided as a service offering, healthcare providers can rapidly implement the solution without investing in in-house systems and realize immediate benefit."

About SalePoint

SalePoint focuses on solutions that automate the front end of the Revenue Cycle for healthcare providers. SalePoint is headquartered in San Diego, California with branch operations in Sacramento, Austin and Columbus, Ohio. SalePoint is a leading provider of high value business solutions to the retail point of sale, corporate retail, higher education, healthcare, and public sector industries. The company provides a complete solution ranging from hardware and software to services required to define, implement and fully support the installed solutions. The company's customers include such leading names as Pacific Sunwear, Spencer Gifts, Kaiser Permanente, Cato Corporation, the University of Chicago and Puerto Rico Aqueduct and Sewer Authority.

About mPay Gateway, Inc.

mPay Gateway develops financial technology products and services to support healthcare's complex and unique payment environment. mPay Gateway empowers health care providers with a single-source payment solution that enables collections from patients regardless of the patient's third-party payer affiliation. mPay Gateway is a PCI certified acquiring card processor.
