eTELU

"My mobile app allows me to quickly find the store, locate merchandise and find special offers just for me!"

Stay Connected

Consumers today rely on their mobile devices for information and connection to retailers that they trust. Expand and enhance your connection with your customer base by publishing your own branded mobile app. Customers will love the assistance your app provides them in locating products and services.

Targeted Offers

Our location analytics provide your marketing department with powerful tools to connect with the customer and provide location specific promotions and product information. Additionally, our app provides information about your customers shopping habits that can provide insight on store layout and customer service.

Engage your Customers

Provide outstanding service to your customers. Our find-a-department application enables your customer to quickly find products in your store and navigate to the right department. The find-a-store app gives your customer driving directions, mall or center location, and convenient parking information for your store.

Maximize the Shopping Experience

SalePoint's ShopperWorks Mobile is designed to promote your store brand and provide the best shopping experience for your customers. Additional features include a Shopping Cart to enable self check out and payment features, a QR Code Scanner giving quick access to product information, personalized News and more...

A Company You Can Trust

SalePoint has built a reputation for quality, delivering gold star service and support. SalePoint has installations in over 5,000 retail stores worldwide. With over 25 years of experience, SalePoint has earned a reputation in the specialty retail industry worthy of your trust.
